SKILLS SUMMARY

- C/C++
- Data Structures
- SQL
- R Programming
- Tableau
- Spreadsheet (Excel, Sheets)
- Python
- Machine Learning

AKSHIT KHAMESRA

PERSONAL PROFILE

- Upcoming BTech graduate offering a strong foundation in software engineering and programming principles across multiple platforms.
- Experienced in data structures and algorithms, object-oriented programming; developing, testing and debugging code.
- Quickly learn and master new technologies; successful working in both team and self-directed settings.

PROJECTS

FitBit Data Analysis

- In this I used FitBit Fitness tracker data to gain insight into how consumers are using their smart devices, determine trends, and theorize what was causing them. I was then able to develop an action plan based on those findings.

Covid Death Analysis

- In this project, I have analyzed Global Death report due to Corona virus and created a Tableau Dashboard.

Plant Health Detector

- In this project, I have created a Deep learning model, trained on numerous leaf images, that identifies whether the plant is healthy or unhealthy by taking in an image of its leaf.

EDUCATION

SRM IST

B.Tech in Computer Science Engineering with specialization in Big Data Analytics | July 2019 - Current

- 2nd Year CGPA: 9.81

CERTIFICATION

Google Data Analytics Professional Certificate

Machine Learning A-Z Certificate
